

METHANI ESWAR

Java Full Stack Developer

methanieswar1@gmail.com | +91 7032689374 | LinkedIn | GitHub

SUMMARY

Java Full Stack Developer with hands-on experience in Java, Spring Boot, React.js, REST APIs, and MySQL. Skilled in developing full-stack web applications, implementing CRUD operations, building RESTful services, and integrating relational databases. Familiar with layered architecture, Spring Data JPA, and frontend-backend integration. Strong problem-solving skills with a passion for learning and building scalable software applications.

TECHNICAL SKILLS

Programming Languages: Java, C, SQL

Backend Technologies: Spring Boot, Spring Data JPA, Hibernate, JDBC, REST APIs

Frontend Technologies: HTML, CSS, JavaScript, React.js, Bootstrap

Database: MySQL, MySQL Workbench

Tools: Eclipse, VS Code, Git, GitHub, Maven, Postman, Swagger

EDUCATION

Bachelor of Technology in Computer Science and Engineering

2022 – 2026

Rajiv Gandhi University of Knowledge and Technologies, Ongole

CGPA: 8.4/10.0

Pre-University Course (PUC)

2021 – 2022

Rajiv Gandhi University of Knowledge and Technologies, Ongole

CGPA: 9.27/10.0

PROJECTS

Job Portal Management System

Java, Spring Boot, REST API, MySQL, React.js

- Developed a full-stack job portal that allows users to register, browse available jobs, and submit job applications through a responsive web interface.
- Built RESTful APIs using Spring Boot with Controller, Service, and Repository layers to maintain clean and structured application architecture.
- Implemented CRUD operations using Spring Data JPA and MySQL for managing users, jobs, and job applications.
- Designed application workflows for job posting, job searching, and candidate application management.

E-Commerce Website

Java, Spring Boot, REST API, MySQL, React.js

- Developed a full-stack e-commerce application for browsing products, managing shopping carts, and placing orders.
- Implemented RESTful backend APIs using Spring Boot for product, user, cart, and order management.
- Integrated MySQL with Spring Data JPA to store and manage application data using relational database entities.
- Developed responsive React.js frontend components and integrated them with backend REST APIs.

Hospital Management System

Java, Spring Boot, REST API, MySQL, React.js

- Developed a full-stack hospital management application for managing patients, doctors, appointments, and healthcare records.
- Implemented REST APIs using Spring Boot following Controller, Service, and Repository layer architecture.
- Designed relational database entities and implemented CRUD operations using Spring Data JPA and MySQL.
- Developed React.js frontend screens for managing patient and doctor information and communicating with backend services.

CERTIFICATIONS

- Java Full Stack Development Training
- Java Programming and Spring Boot
